

Wednesday 9th November 2016 The Studio, Birmingham

#POMCTN

5 CPD credits

CPD codes: 1A03, 1F03, 1H01
1H02, 3J02, 3J03, 1I05, 3I00

09:00-09:45 Registration and refreshments

Morning session (09:45 – 12:30)

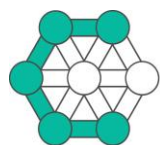

Plenary session: Clinical Trials Training

09:45-09:50	Welcome	Dr Joyce Yeung, University of Birmingham
09:50-10:05	What does a good Principal Investigator look like?	Professor Rupert Pearse, Queen Mary University of London
10:05-10:20	Ten common mistakes in trial design	Dr Matt Wilson, University of Sheffield
10:20-10:35	Working with Patient Partners	Dr Mark Edwards, University Hospital Southampton
10:35-10:45	Questions	All speakers

10:45-11:00 Refreshments

Full Research Proposals

11:00-11:30	TIFF: The impact of liberal versus restrictive Transfusion strategy on cardiac Injury in patients undergoing surgery for Fractured neck of Femur	Dr Mike Gillies University of Edinburgh
11:30-12:00	TOPIC: ThOracic epidural versus Paravertebral Blockade in Chronic post thoracotomy pain	Professor Fang Gao, University of Birmingham
12:00-12:30	FLO-ELA: FLuid Optimisation in Emergency LAparotomy. Open-label, multicentre, randomised controlled trial of cardiac output-guided haemodynamic therapy compared to usual care in patients undergoing emergency bowel surgery	Dr Mark Edwards, University Hospital Southampton

12:30-13:00 Lunch

Afternoon session (13:00 – 16:00)

Outline Research Proposals

13:00-13:20	The role of microcirculatory blood flow measurement in risk stratifying patients pre-operatively	Dr Elizabeth Potter, Royal Surrey County Hospital
13:20-13:40	RIPNOC: Ischaemic pre-conditioning in non-cardiac surgery	Dr Kat Papadopoulou, Royal Surrey County Hospital
13:40-14:00	SPACE: Do we give or withhold ACE inhibitors before surgery	Dr Gareth Ackland, Queen Mary University of London
14:00-14:20	Trial to investigate the effectiveness of a nutritional intervention to enhance patient recovery after elective major lung Surgery- ThIRStY Feasibility Study	Mrs Amy Kerr, Heart of England NHS Foundation Trust
14:20-14:40	Use of a perioperative care bundle to reduce post-operative pulmonary complications in high-risk patients – a two-centre randomised controlled feasibility study	Dr Ben Creagh-Brown Royal Surrey County Hospital, Guildford

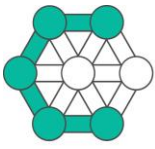

14:40–15:00 Refreshments

Full Research Proposals

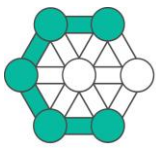

15:00-15:30	COMMA/CUPPA Comprehensive moUth-care to reduce Post-operative Pneumonia (CUPPA)	Mr Ravinder Vohra, Nottingham University Hospital and Dr Victoria Field Derriford Hospital, Plymouth
15:30-16:00	OPTIMISEII: Optimisation of Peri-operatiVe Cardiovascular Management to Improve Surgical Outcome II	Professor Rupert Pearse, Queen Mary University of London

Plenary

16:00-16:20	Clinical trials – ‘Thinking Big’	Mr Simon Bach, University of Birmingham
16:20	End of Day	Professor Rupert Pearse, Queen Mary University of London
